Patient's relationship to Primary Insured: Self ☐ Spouse ☒ Child ☐ Guardian ☐Health conditions related to work or auto accident? Y ☐ N ☒ If so, Date of Loss: [REDACTED] (mm/dd/yyyy)**I. Goals:** What would you like to address through treatment?

I would like to be able to get to a point where I can be healthy in order to have a better quality of life

InsomniaGall bladder June 21**II. Medications / Supplements**

Medications you are currently taking (please include prescription medicine, supplement, herbal supplements and over the counter medicines you take on a regular basis, along with dosages and brands if known)

Levothyroxine 100mcg dailyNov 2021Initial conditionTylenol (rarely)Benadryl(for hives as needed)Allergies (to medications, chemicals or foods): undetermined**III. Lifestyle**1. What is your occupation? homemaker How many hours do you work weekly? 0

2. How many servings per day do you use of the following?

Coffee 0 Tea 0 Soft drinks 0 Alcohol 0 Water lots Cigarettes, cigars, or other tobacco 03. Do you have a known history of any exposure to toxic substances? Yes ☐ No ☒

4. Please describe your current exercise regimen: Hours per week: 1-5 Activities: walking/yoga when tolerated  
5. How many hours of sleep do you usually get per night? 2-5

Do you awake feeling rested? Yes ☐ No ☒ Do you sleep soundly? Yes ☐ No ☐

Do you get up at night to urinate? Yes ☒ No ☐ If so, how often? 1-2

6. Frequency of bowel movement: <sup>constipation</sup> \_\_\_\_\_ per day or \_\_\_\_\_ per week

What is the color of stool? \_\_\_\_\_

#### For Women:

1. Age: First period 16

Menopause: Yes ☒ No ☐

a) Average number of days of flow: 0 days The flow is: Normal ☐ Heavy ☐ Light ☐

c) The color is: Normal ☐ Dark ☐ Purple ☐ Light Brown ☐ Brown ☐

d) Time between periods: 0 Days

2. Are you pregnant now? Yes ☐ No ☒ Unsure ☐

3. Indicate number of occurrences: Live Births 3 Pregnancies 4

4. Dates: Last Pap Smear \_\_\_\_\_ (dd/mm/yyyy) Last Mammogram 12/2021 (dd/mm/yyyy)

#### For Men:

Do you have any bothersome urinary, genital, or sexual symptoms? Yes ☐ No ☐

If yes, please describe: \_\_\_\_\_

#### IV. Pain

If you are experiencing pain/discomfort using the models to the right, please indicate the location of the discomfort by using the below symbols that best describes the feeling.

- A** Aching
- B** Burning
- C** Cramps
- D** Dull
- E** Effusion (Swelling)
- N** Numbness
- S1** Sharpness
- S2** Shooting
- S3** Sprain
- S4** Stiffness
- S5** Strain
- T1** Tingling
- T2** Throbbing
- O** Other

Please describe pains in the order of the severity. **Top priority first, please.** For example, Headache, Neck, Shoulder, Arm, Elbow, Wrist, Hand, Finger, Upper Back, Lower Back, Sciatica, Abdominal, Hip/pelvis, Thigh, Knee, Calf, Foot, Ankle, Toe and etc.

Right side of body numbness , tingling, throbing, shooting pain stiffness in lumbar region primarily on right side

**V. HEALTH: Please check all that apply, left for past right for current**

**VI. Recent Hospitalizations / Surgical History**

<b>Tyroidectomy</b>	Date <b>11/21</b>
<b>Gallbladder Removal</b>	Date <b>06/21</b>
<b>Hysterectomy</b>	Date <b>12/03</b>

**Other relevant information:**

I have attached a more detailed summary for your information. The main concern I have now is that I am essentially starving

I am unable to eat anything with texture. I can sometimes keep water and broths down but anything with too much

thickness or texture causes vomit. This has been getting progressively worse for the last year when I first became sick I was over 200 lbs I had s

spent years being sick and not losing weight then all the sudden my body changes I started having major digestive issues

I have been under the care of drs since beginning with no relief and no real diagnosis to explain all symptoms

so far they are saying Gerd but it doesn't really fit. I just want to be able to have some kind of quality of life and I right now I don't

I am receiving acupuncture and related treatments from Byoung Soon Kim L.Ac.

I hereby authorize KOSA Acupuncture to verify information required for processing payment, and to collect payment directly from my insurance.

I understand that if my insurance fails to cover for my treatments or pays me less than the prefixed price (mutually agreed), or pays me directly, I am responsible for making payments. I also authorize the clinic to obtain any medical information on me as needed.

Date – March 2022

All Symptoms –

- Constant severe digestive issues – severe constipation, stomach pain, nausea , vomiting, eating, etc. being treated by Dr. [REDACTED]
- Frequent Hives covering arms, legs, trunk, etc. unable to pinpoint any triggers they are random (allergy testing was inconclusive) HIVES HAVE BECOME LESS FREQUENT SINCE THYROID REMOVAL
- Night Sweats – SIGNIFICANTLY IMPROVED SINCE THYROIDECTOMY
- Severe Chronic Insomnia – HAVE HAD SOME IMPROVEMENT IN SLEEP ABLE TO FALL ASLEEP FOR A FEW HOURS AT A TIME NOW
- Headaches/Migraine
- Memory Loss – some short and long term this has gotten progressively worse in the last two years – HAS GOTTEN WORSE
- Vision issues that change some days. Its just everything is blurry; some I can barely see and others I see ok – HAS GOTTEN WORSE
- Balance issues – HAS GOTTEN WORSE
- Lack of feeling in skin, lots of numbness and tingling arms. Hands. Neck. upper right thigh
- Weight gain for 5 years until Late Dec 2020 when the last stomach thing happened and I have been loosing weight consistently since. The total to date is 95 LBS – HAS GOTTEN WORSE
- Had to had all but 10 teeth removed in late 2018 due to breakage and lost teeth was told not a candidate for implants due to bone loss
- Cold Intolerance – HAS GOTTEN WORSE
- Heat Intolerance – NOT AS BAD
- Muscle Spasms and Cramps – HAVE BECOME MORE FREQUENT
- Fatigue – MUCH WORSE VERY DIBILITATING
- Anxiety -
- Hair Loss -
- Thin Skin get cuts easily
- Bruising
- Slow Healing
- Facial Hair
- I have developed a cough that comes and goes almost like asthma in the last few months.

Health History –

I have been suffering with one chronic illness or another as long as I can remember I am getting diagnosed with a new issue all the time with no answers about what the actual root cause is.

I have been under the care of [REDACTED] physicians since January 2020, I am currently seeing several specialist trying to figure out the cause of my health issues. They are complex and many and as of now I still have no diagnosis or successful treatment options for my stomach issues

I was on trazadone all three times I had the stomach issues. I stopped this medication and saw some improvement with my stomach but have been left with chronic issues.

I had to stop Protonix and Pepcid due to both causing psychiatric issues – EXTREME SUICIDAL AND DEPRESSIVE THOUGHTS AND ERATIC BEHAVIOR UNCHARICTARISTIC

I was able to take the nausea meds occasionally as they exacerbate the constipation which worsens the nausea and vomiting and stomach pain however they have become less and less effective

Childhood – Stomachaches, migraines. Was diagnosed with spastic colon around age 10, lots of sore throats and respiratory issues was prescribed donatal for a large portion of childhood

Teen – period issues , endometriosis, chronic headaches

1995 – 1998 Ovarian Cysts, Fibroids, Infertility – Diagnosed PCOS – [REDACTED]  
[REDACTED]

1999 - C Section 40wk – Toxemia

2001- Miscarriage

2002 – C Section - Twins– 31wks

2003 – Hysterectomy – [REDACTED] – tried hormone replacement then stopped due to side effects

2003 Began experiencing worsening widespread body pain, fatigue, insomnia, weight gain saw many doctors was diagnosed with Fibromyalgia – Dr [REDACTED]

2009 – Vision Issues and Migraines very severe saw Dr. [REDACTED] – showed Pituitary Adenoma was sent to Dr. [REDACTED] for Eyes – Diagnosed with Tracheitis – treated with injections

No mention of Pituitary was made again.

2010 – [REDACTED] PA [REDACTED] – Bone Density Scan diagnosed with Osteopenia

2015 – Broke both feet falling down the stairs – have had various sprains and fractures over years

2015 – Diagnosed Thyroid Nodules – Dr. [REDACTED] – Thyroid Tests Normal

2017 – High Blood Pressure Diagnosis – Dr [REDACTED]

2018 – A; bit 8 teeth removed too much bone loss for implants

July 2019 – Hospitalized – Sever stomach pain upper right quadrant – not gallbladder or liver found  
ulcers – Symptom Management was treated with protonix

2020 – Dr. [REDACTED] – diagnosed. Pre diabetes – NAFLD

2020 – Dr [REDACTED] – treated for migraine – also did pituitary scan to monitor nodule

2020 – Dr [REDACTED] – Scan of Thyroid showed more nodules and some he wanted to biopsy.  
We lost insurance and income before the biopsies could be done.

Jan-Feb 2021– Hospitalized – Nausea , vomiting , upper right pain stomach – symptoms lasting over 6  
weeks – was 212 lbs at Christmas weight at hospitalization 183. In 5 years I have not been able to loose  
a single pound. Not when I was hospitalized the first time or when I had my teeth taken out. Was  
prescribed protonix ended up being on them until June when I had to stop due to them causing extreme  
psychiatric issues. My beginning weight before getting sick was 228 at my highest before I started  
loosing weight.

March 2021 – Had Gallbladder Surgery – Dr. [REDACTED]

June 2021 – Colonoscopy/ Endoscopy – removed polyps , internal hemorrhoids , ulcers etc - Perfomed  
by Dr [REDACTED]

Nov 2021 – Thyroidectomy
